Project Instructions

There is a family of seven, which is the Fleming family, who would like to go to Walt Disney World. The family includes a mom, a dad and 5 girls. These girls’ ages range from 11 years old to 22 years old. They need your help to plan their trip and make a brochure. As their new travel agent, you need to use your research skills and research Walt Disney World and the rides. You also need to use your geography and map skills to locate exactly where they want to go. But beware; there are a lot of math and budget skills needed for this project. So, put your thinking cap on and create an amazing brochure with lots of pictures and facts!

**TASK**

Your job is to create a brochure for the Fleming family, telling them what they will be able to do while they are in Walt Disney World. They have been there once before, but, they don’t remember it. You have to make this trip unforgettable. On the brochure you have to include many pictures and details to show them how amazing this trip will be.

1. **Research**
   a. research Walt Disney World, the rides, and the cost of everything.
   
   b. find the entrance cost of the parks and the times they are open.
   
   c. find some cool pictures and a map of Walt Disney World to get the Fleming's excited for their trip.

2. **Create a brochure; include all of the facts and pictures you found.**

3. **Present your brochure to your class.**

Please refer to this link for further details:

The brochure must be 7 – 10 pages long / the Powerpoint presentation must be 7 – 10 slides
